order!**

In Search Of.....

We are in search of adults willing to share their careers with students for our Career Day on April 10th. This would involve giving a 20-minute presentation to 6 different groups of students. We would give you suggested topics to cover in your presentation and we would love for your presentation to include an interactive component in some way. The times available are:

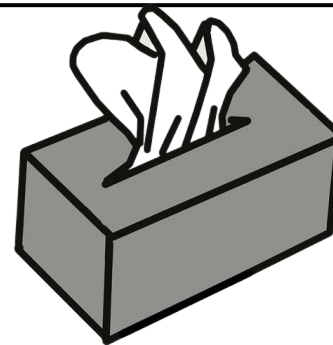

8:15-10:30

10:40-12:45

1:00-3:05

We would love to have speakers in a variety of career fields. If you are interested or if you have additional questions, please call (765) 668-7136 ext. 3007 or email Amy Richards at arichards@eastbrook.k12.in.us. Thanks for considering this opportunity!

Cold & Flu season is among us. With that being said, EMS is in need of boxes of facial tissues. If anyone would be willing to donate boxes, please feel free to drop them off in the office or send them with your student to bring to the office. All donations are greatly appreciated, thank you!

Counselor's Corner

It is time to think about selecting classes for the 2024-2025 school year. All current 6th and 7th grade students will be receiving elective selection forms in early February. These forms need to be signed by a parent/guardian and returned to the middle school office by the end of February. A specific deadline will be stated on the forms. Staffing and scheduling decisions are based on student elective requests, so it is important that students think about their elective selection and choose the elective class that they most desire to have.

In early February, Mrs. Duckwall and Mrs. Richards will be visiting the 5th grade classes at Eastbrook North and Eastbrook South to talk to students about middle school and to distribute course selection forms to all students.

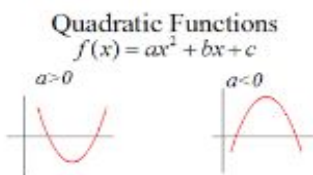

If you have any questions regarding scheduling for the 2024-2025 school year, please contact Mrs. Duckwall or Mrs. Richards at the middle school.

Eighth Grade Math- Mr. Bruckner

In February, eighth-grade math students will learn to solve real-world problems involving triangles by using the Pythagorean Theorem.

Algebra students will learn methods for factoring polynomials. Students will also learn to graph quadratic functions, explore the characteristics of quadratic functions, and solve quadratic equations.

6th Grade Honor Roll- Semester 1

High Honor Roll

Maxwell Bragg
Alivia Bruckner
Nolan Chenoweth
Avery Dewar
